Associate Degree of Ministry

Duration: 2 year Full Time
6 years Part Time

The Associate degree is a two-year full time or part time equivalent nested award within the Bachelor of Ministry and Bachelor of Theology degrees. This degree contributes to the provision of theologically informed ministers and Christian workers with appropriate basic skills for ministry in local churches and other Christian ministries, social and aid organisations and mission groups.

On successful completion of the course, students will have developed knowledge, understanding and skills which are relevant for personal Christian living and for a variety of Christian ministry vocations, such as supportive roles in local churches and missionary organisations, Christian aid and social services, youth work, pastoral care and similar vocations. They will have identified one or more of these vocations as their future avenue for Christian services and begun to consider some specialized study for that goal.

For some, this course alone may not provide all the vocational preparation that is required and may need to be supplemented with practical training in ministry, specialised denominational training, front-line experience and/or higher-level studies such as a bachelor’s degree, perhaps followed by postgraduate study.
